Dear Janice,

On behalf of the Board, staff, and members of the National Federation of Advanced Information Services (*NFAIS*TM), I want to take this opportunity to congratulate the Special Libraries Association on the occasion of its One Hundredth Anniversary. It is a very impressive milestone and having reached it is a direct reflection of the value that the organization provides, not only to its constituency, but also to the information community as a whole.

You have the right to be extremely proud of how your organization has grown, both in membership and in its invaluable programs, and the fact that you have attracted such broad international participation. Having just completed our Fiftieth Anniversary and only beginning the trek towards our centennial, we can only hope to emulate your success.

Again, on behalf of the NFAIS Board, staff and membership, I offer our sincere congratulations on a job well done, and our very best wishes for a successful journey in the future.

With Sincere Regards,

Bonnie Lawlor
Executive Director
