Join our host, Director Sharon Gray, for a tour of Vanderbilt University's Peabody Institute Library. The Peabody Institute is Vanderbilt's College of Education. The Peabody Library building was a gift to Peabody College from the Carnegie Corporation and was one of more than 100 academic library structures endowed by Andrew Carnegie. This was the first library to be cataloged according to the Dewey system in Tennessee, and probably in the South. A renovation has been undertaken in recent years and an expansion is planned for the future, so it will make for an interesting tour.
