

## SOFTWARE & DATA

- Backup version in dry, safe location?
  - Reload software and data using backup versions.
  
- Need original software?
  - Send to be dried and copied onto new tape or cartridge.
  - Discard the original.
  - Load copied version into "recertified" computer.
  - Import data.
  
- Time to upgrade commercial program?
  - Purchase new version of software or new format on CD-ROM.
  - Load onto computer.
  - Import data.

DRS can dry and copy wet data, tapes, and floppies.
