About Deep Web Technologies...

- Founded in 2002
- Over 100 solutions deployed worldwide
- 12 partners worldwide that integrate/resell the Explorit solution
- Pioneer/trailblazer in federated search
- Based in Santa Fe, NM
DWT Mission

Deep Web Technologies creates custom, sophisticated federated search solutions, based on Explorit™, for clients who demand comprehensive, relevant results.

The Access to Scientific and Socio-economic Information in Africa (ASKIA) Initiative is under the Public Information & Knowledge Management Division of the United Nations Economic Commission for Africa. It defines a framework for bringing together scientific and socio-economic information for the African community, including scientists, researchers, academics, students, economists and, policy-makers, over an interactive online portal acting as a one-stop shop to such knowledge and associated information from/on Africa. The overall goal of the initiative is to strengthen knowledge discovery and access by tapping into global scientific and socio-economic knowledge on and from Africa.
The rings of Saturn in the aortic arch? An unusual consequence of cardiopulmonary bypass in an acute type-A aortic dissection.

PMID:19049503
Chen, Henry L P, Quintana, Jeffrey S, Matsuda, Bryan; Holak, Elena J; Matran, Sandeep; Pagel, Paul S. Journal of cardiothoracic and vascular anesthesia 2009-07-30

Plasma, plumes and rings: Saturn's system dynamics as recorded in global color patterns on its midsize icy satellites.

New global map of Saturn's F, G and E-rings and a detailed model of an icy small satellite.) Paul Schenk, D, Icarus 2011-01-01

Thermal observations of the rings of Saturn.

Two and a half hours of data (factor of Saturn's rotation) were obtained from the Infrared Observations of Saturn's Ring. Nicolas Alibert and 2008-01-01

Infrared observations of Saturn's rings at the Galileo mission.

Detailed measurements (including physical temperature and filing) of the rings of Saturn. Comprehensive thermal mapping is a key requirement for the mission. Nicolas Alibert and 2008-01-01

Education

Source:
National Center for Education Statistics (NCES)

Description:
Students admitted: female applicants that have been granted an official offer to enroll in a postsecondary institution.

Dataset:
Data are from the Integrated Postsecondary Education Data System (IPEDS) conducted by the NCES. IPEDS involves annual institution-level data collections. All postsecondary institutions that participate in Federal programs providing financial assistance to students are required to report data using a web-based data collection system.
